

TERMS & CONDITIONS

ALL BARS ARE MANUFACTURED FROM 304 U.S.A STAINLESS STEEL.

- 1) All Handlebars Are Available In Mirror Finished Polished Or Powder Coat Black (Matte & Gloss) At No Extra Charge. Please Specify Desired Finish Upon Order Confirmation.
- 2) All Handlebars That Deviate From Our Standard Advertised Range; Must Be Paid For In Full Before Manufacturing Will Commence.
- 3) Any "Custom Design" Handlebars Will Not Be Accepted For Return,
- 4) "Custom Design" Handlebars Must Be Approved By Management Of Burleigh Bars. A Technical Schematic Must Be Provided By The Client, With All Relevant Information/ Measurements Included. These Bars Will Be As Good As The Design Provided Allows & Any Inaccuracies In Design Are The Fault Of The Client Providing The Schematic. Burleigh Bars Accepts No Liability. Once Manufacturing Has Commenced No Changes Can Be Made To Said Design Without Express Permission Of The Director Of Burleigh Bars.
- 5) "Custom Alteration" Requests For Standard Range Handlebars, (E.G Additional Width or Non Standard Height) Will Incur A 10% Minimum Re-Tooling Fee.
- 6) The 1-1/2" & 1-3/4" Handlebars **CANNOT** Be Installed With The "Harley Davidson 82'-95' "Kelsey Hayes" Style Master Cylinder.
- 7) Digital/Custom Gauge Mounts Can Be Incorporated Into The Manufacturing Process Upon Request. Said Request Must Be Made Upon Confirmation Of The Order & Prior To Manufacturing Commencing. The Client Bears Full Responsibility For Providing Accurate Schematics For Aforementioned Gauge Mounts. Said Gauge Mounts Will Incur An Additional Cost That Will Be Provided Upon Request.
- 8) **WE DO NOT CHROME HANDLEBARS UNDER ANY CIRCUMSTANCE.** Our Stainless Steel Bars Can Be Show Chromed But This Is To Be Done Independently By The Client At Their Own Cost & Volition.
- 9) The Client Is Responsible For Accurately Providing Information On Custom Alterations That They Have Made To Their Vehicle That Will Affect Handlebar Fitment.
- 10) Hydraulic Clutch Master Cylinders That Are Mounted On The Handlebars, Require Accommodation To Be Included During Manufacturing Process Of 1-1/2 inch & 1-3/4 inch Handlebar Ranges. This Cut Out Can Be Supplied Free Of Charge, Upon Request Only.

STAINLESS STEEL HANDLE BAR MAINTENANCE

- BURLEIGH BARS RECOMMEND POLISHING STAINLESS STEEL HANDLEBARS WITH BURLEIGH BARS LIQUID MIRROR POLISH, WHICH IS AVAILABLE DIRECT FROM US OR AT YOU LEADING LOCAL DEALERS.
- **DO NOT** USE BRUSHES, ABRASIVE MATERIALS OR SCOURERS WHEN CLEANING STAINLESS STEEL HANDLEBARS, AS THEY WILL MARK THE POLISHED OR POWDER COATED HANDLEBAR FINISH.
- REGULAR POLISHING SHOULD BE DONE TO AVOID LENGTHY MAINTENACE DUE TO LONG TERM DETERIORATION.
- **DO NOT** USE BURLEIGH BARS LIQUID MIRROR POLISH ON CHROMED SURFACES.
- SCRATCHES AND SURFACE DAMAGE ON 304 U.S.A STAINLESS BURLEIGH BARS HANDLEBARS CAN USUALLY BE RECTIFIED BY THE BURLEIGH BARS MANUFACTURING TEAM UPON REQUEST. COSTS MAY APPLY DUE TO CIRCUMSTANCE.
- **DO NOT** USE ANY METAL POLISH, ABRAISIVE CHEMICALS OR ABRAISIVE MATERIALS UPON POWDER COATED SURFACES.
- REGULAR MAINTENACE WITH APPROVED MATERIALS WILL ENHANCE THE LONGEVITY OF YOUR HANDLEBARS & REDUCE CLEANING TIMES. FOR ANY QUERIES ON WHETHER A PRODUCT OR MATERIAL IS APPROPRIATE FOR MAINTENACE OF BURLEIGH HANDLEBARS, CALL/EMAIL DIRECT OR CONSULT YOU LEADING LOCAL DEALER.
- **DO NOT** USE STAINLESS STEEL MOUNTING BOLTS ON ANY OF THE BURLEIGH BARS HANDLEBAR RANGE.
- ALL BURLEIGH BARS HANDLEBARS, (EXCEPT FOR THE 1 INCH RANGE & APEHANGERS), HAVE POLISHED WELDED AREAS.
